1. INTERNATIONAL OLYMPIC COMMITTEE

The IOC is an international, non-governmental and non-profit organization and the supreme authority of the Olympic Movement. The IOC adopted the Olympic Charter (OC) as the codification of the Fundamental Principles of Olympism Rules and Bylaws. It acts as a catalyst for collaboration between all parties of the Olympic family, including the National Olympic Committees (NOCs), the International Sports Federations (IFs), the athletes, the Organising Committees for the Olympic Games (OCOGs), and the Olympic Partner (TOP) program sponsors and broadcast partners. Sint Maarten is not recognized as an independent country by the IOC, therefore is unable to attain membership through the SMSOF functioning as the NOC of Sint Maarten.

IFs are international non-governmental organizations recognized by the IOC as administering one or more sports at the world level. Its establish, apply and enforce the rules concerning the practice of their sport, promote the sport to prospective spectators and fans, develop prospective players, organize world or continental championships, and control the qualification pathways for their sports) at all major multi-sport events. IFs membership consists of the National Federations (NFs) for the given sport in each country. Most NFs on Sint Maarten are a member of their respective IF and must follow the rules set forth by the IF.

3. PAN AMERICAN SPORTS ORG.

PANAM sports leads the Olympic movement throughout the Americas. It is the continental organization that represents the NOCs of the Americas. The organization facilitates the exchange of information and experiences between the member NOCs as well as organize the PANAM games and endorse other regional tournaments in the Americas. Sint Maarten is eligible to become a associate member, but is not a member at this time.

4. CENTRO CARIBE SPORTS

Centro Caribe Sports (formerly Central American and Caribbean Sports Organization (CACSO)) is a regional sports federation recognized by the IOC which oversees the Central American and Caribbean Games and beach games. In 2017 Sint Maarten was admitted during the XLVIX General Assembly as an associate member after CACSO approved a change to their constitution in 2014 to create an associate membership category for territories in the region without a NOC.

5. CANOC

The Caribbean Association of National Olympic Committees is a regional organization comprising NOCs, Commonwealth Games Associations and governing bodies of national sports organizations. It was established in 2003 and has as its principal objectives the celebration and conduct of the Caribbean Games and the promotion, development and protection of Sport as well as the Olympic Movement in the Caribbean through its member

Furthermore, the SMSOF is expected to: affiliate and network, the federation with international sports organizations; encourage and support the organization, development, and coordination of sports and sports competitions; facilitate, assist, and encourage the NFs with their development, organization, structure, and good governance; represent athletes for international tournaments, events, and training camps; and assist sports federations in the preparation, participation, and selection of their delegations in national, regional and international games. SMSOF is not recognized by the IOC and therefore not an official National Olympic Committee but is eligible to be recognized by CANOC as the umbrella body for Sint Maarten.

NFs are fully responsible and accountable for the overall management, direction, control, regulation, promotion, development and sponsorship of the discipline for which they are recognized by the concerned International Federation and the SMSOF. NSI is also responsible for executing various sports programs, such as school, community, and elderly programs. The maintenance and management of the facilities are guided by the approved Sint Maarten Sports Facilities policy.

The Department also acts as a facilitator of sports and issues subsidies for the development of sports according to its Program of Requirements policy.
